

NightGuard Flex™

Clinically formulated for maximum speed, patient comfort, and durability.

SRI-0202015

SKU Number

NightGuard Flex™ was formulated from the ground-up to create the fastest, most comfortable 3D printed occlusal guard in dentistry. This biocompatible* material features high impact strength and flexure at body temperature; your patients will love the comfort and longevity. Achieve superior fit and finish with a guard that is easy to polish and clean. Plus, NightGuard Flex™ is flavorless, ensuring smooth delivery.

Designed to work in tandem with SprintRay Cloud Design and Pro 3D printing systems, NightGuard Flex™ creates efficiencies across your workflow so you can focus on protecting more smiles. Faster printing speeds and improved dimensional stability while printing means you save time and resin by using fewer supports.

With NightGuard Flex™ SprintRay is delivering on the frictionless occlusal guard workflow – from scan, to design, to printing and placement, protecting more smiles and delighting more patients.

IMPACT STRENGTH

High impact strength reduces the chance of breakage under load.

FULL-ARCH PRINT TIME

Print speeds measured on SprintRay Pro95 at 170µm layer thickness vs competitor resin.

KEY BENEFITS

- ✓ Simple chairside experience with heat-set delivery
- ✓ More than 2X faster print speeds vs competitive products
- ✓ Comfortable, easy to clean, and flavorless
- ✓ High impact strength and flexibility
- ✓ Designed for patient comfort
